

Using a BigKeys LX keyboard with a Mac computer

- Plug in your BigKeys LX keyboard.

The Keyboard Setup Assistant "Introduction" box will appear.

Click on "Continue".

- "Identifying Your Keyboard" box will instruct you to press the key to the right of the left Shift key.

On BigKeys LX, press the "Z" key.

- "Identifying Your Keyboard" box will instruct you to press the key to the left of the right Shift key.

On BigKeys LX, press the key with the "? /" symbols.

- "Conclusions" box will appear, stating that your keyboard has been identified.

BigKeys LX will work if you select either ANSI or ISO.

- Click on "Done".
